### Business Opportunities:

**Wire drawing die tools**  
+  
**die processing machines**

### In detail, the product range comprises:

- **Precision wire drawing die-tools** made from tungsten carbide, natural diamond and synth. PCD-diamond materials.  
*(Pioneers in first use of PCD for precision die-tools!)*
- **Die-Tool processing machines** for the repair and/or production of these ultrahard precision tools (standard, semi-automatic and fully automatic conceptions)
- **Die Workshop Ancillary equipment** (cleaning- /measuring devices, microscopes etc.)
- **Technical Assistance** (installation, training, die-reconditioning know-how etc.)
- **Die Tool working materials** (e.g. diamond powders, -pastes, -suspensions, grinding pins)
