

Synthetic Polycrystalline Diamond Dies (PCD)

PCD Compacting Die
for stranded copper and
aluminum conductors

PCD Die blanks

**...are being
manufactured
from first-
class quality**

PCD die-blanks only. EDER-Austria are proud to have manufactured the first Compax-PCD Die in Europe in 1968 - prior to commercialization - and the first PCD Compacting Dies in 1988. EDER PCD Dies are made in an outstanding quality, showing a distinct superiority when drawing non-ferrous wires, stainless steel wires and refractory wire materials etc. They are a key for achieving optimal economy in any wire drawing plant.
